Chicago, Illinois. I wish to speak to anyone at Lincoln 1000." If the number of the desired telephone is not known, give the long distance operator information as follows: "This is a Station-to-Station call—4-3552, John Smith, calling Chicago, Illinois. I wish to speak to anyone in John Brown's office in the Wrigley Building."

PERSON-TO-PERSON CALLS

A "Person-to-Person" call is one on which a particular person, or someone of a group of persons, or a certain station of a private branch exchange system, is specified to be reached at the called telephone.

The charges on Person-to-Person calls may be reversed and billed to the called telephone, if the operator is so instructed when the call is placed, and if the called person accepts the charge.

TO PLACE A PERSON-TO-PERSON CALL, give the long distance operator information as follows: "This is 4-3552, John Smith, calling Chicago, Illinois. I wish to speak to John Brown at the Chicago Hotel."

APPOINTMENT CALLS

An "Appointment" call is a type of Person-to-Person call on which conversation is to be established at a specified time.

MESSENGER CALLS

A "Messenger" call is a type of Person-to-Person call on which the called person cannot be reached by telephone and it is necessary for the telephone company to arrange for a messenger to notify the called person to come to the telephone.

Rates for messenger service must be added. Reduced EVENING and NIGHT rates do not apply.

No "Messenger" call will be accepted unless the person calling guarantees payment for the messenger service. If a messenger charge is incurred, the charge will be made even if the desired conversation is not held.

REPORT CHARGE

(Applies to Inter-State Calls Only)

It is sometimes impossible to establish conversation on person-to-person, appointment and messenger calls, due to reasons beyond the control of the telephone company and although the preliminary work of handling the call is properly performed. In such cases a small charge is made for the work already done. Conditions under which a report charge is made include:

- (1) Refusal of the called person to talk or allow the charges to be reversed;
- (2) Inability to reach the called or calling person after the called point has been reached, or an appointment arranged for; or
- (3) Inability on the part of the telephone company to locate the called person when insufficient information has been supplied by the person placing the call.

If, at the request of the calling party, attempts are made to reach the called party at more than one city or town, the attempt made at each city called will be considered a separate call, and the report charge applied accordingly. The charge is not made unless a definite report is made within one hour after the call is placed, provided that no delay is announced at the time the call is accepted. No charge is made when the reason for not completing the call is because "lines are busy," "out of order" or because the "called telephone does not answer."

Report charges do not apply to station-to-station calls.

REQUESTS FOR CHARGES

If a patron desires notification of the amount of the charge on a message, the long distance operator should be so advised at the time the call is placed. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rates and computes the charge.

MISCELLANEOUS INFORMATION

EMERGENCY CALLS. Report to the Fire Department and Police when the patrons do not call by number, are not a part of the service for which the telephone company contracts, but are purely an accommodation and may be discontinued at any time. The telephone company assumes no liability for mistakes of its employees in rendering this accommodation service, and the patron by requesting such service makes the operator his agent for such purpose.

ERRORS IN DIRECTORY. Great care is exercised in the preparation of this directory, but the Southwestern Bell Telephone Company assumes no liability whatever for damages arising from errors and omissions in the printing of this directory.

CHANGE OF TELEPHONE NUMBERS. The telephone company reserves the right to change telephone numbers from time to time as the necessities of the business may require, and, therefore, subscribers are urged not to use their telephone numbers in advertising matter. The phrase "Bell Telephone Connection" is suggested instead.

MOVING TELEPHONES. As a large amount of telephone equipment has to be moved yearly it is necessary that subscribers give at least ten days' notice in writing when they are moving to new quarters. Ample notice will enable us to move telephone equipment so that telephone service will be practically uninterrupted. Owing to the large number of move orders on or about May 1st and October 1st, thirty days' notice should be given of moves desired at those times, if possible.

ANY CHANGE IN THE LOCATION OF TELEPHONE INSTRUMENTS and equipment must be made by the employees of the telephone company.

WHEN ANSWERING CALLS time will be saved if you will immediately give your number or name, as "6342," "4-9013W" or "Jones' Department Store." This informs the person calling that the desired connection is established. Please answer the telephone promptly—Courtesy to the calling party requires it.

UNSATISFACTORY SERVICE. Uniform courtesy and politeness is an imperative rule of this Company, and all employees are required to be courteous and patient at all times. If service is unsatisfactory, prompt report should be made of it by calling "Chief Operator." Do not report unsatisfactory service to the operators, as conversation by operators, beyond that necessary to complete connections, impairs the service. Report of unsatisfactory service should be telephoned, not written, as more satisfactory investigation is possible when an immediate report is made to the Chief Operator.

This directory is the property of the Southwestern Bell Telephone Company. It is loaned free of cost to the subscriber and must be returned upon the delivery of a copy of the new edition.
