10 cents; on calls from \$1.00 to \$1.99, 15 cents;  
on calls costing \$2.00 and over, 20 cents.  
No tax applies on calls costing less than 50 cents.

**HOW TO MAKE A LOCAL CALL**  
OBTAIN THE CORRECT NUMBER FROM THE  
TELEPHONE DIRECTORY. Remove the receiver from  
the hook and place it to your ear. When the operator  
answers "Number Please," give the number found in  
the directory distinctly one figure at a time, as for  
example:

"THREE - OH - ONE - THREE - W"  
for 3031-W. When the figure 0 appears in a number,  
it should be pronounced as "OH." With the receiver  
to your ear, listen for the ringing signal, the busy  
signal, or a report from the operator.

**TO RECALL THE OPERATOR** at any time during  
a connection, move the hook up and down slowly five  
or six times, and repeat until the operator answers. A  
rapid movement of the hook gives the operator no  
signal whatever.

Do not hang up the receiver until you are through  
with the connection, as this gives the operator a signal  
to disconnect you.

**WHEN ANSWERING CALLS** time will be saved  
if you will immediately give your number or name, as  
"342," "863-W" or "Jones" Department Store."  
This informs the person calling that the desired con-  
nection is established. Please answer the telephone  
promptly—Courtesy to the calling party requires it.

### OUT OF TOWN CALLS

The Southwestern Bell Telephone Company through  
its relation with other telephone companies, is enabled  
to establish communication promptly at reasonable cost  
to almost any telephone in the United States, as well  
as to telephones in many cities in Europe, Canada,  
Mexico, Cuba, South America and Australia.

### HOW TO PLACE THE CALL

Decide first whether the lower priced "station-to-  
station" service can be used or whether the higher  
priced "person-to-person" service is necessary. To  
help you decide, these calls are explained below.

### STATION-TO-STATION CALLS

A station-to-station call is one on which you talk  
to anyone who answers at the called telephone. The  
rate on a station-to-station call is lower than the rate  
for a call to a particular person.

To place a "station-to-station" call, ask the opera-  
tor for "Long Distance" and when "Long Distance"  
answers give the operator your call. If you know the  
number, say, for example, "I want Galveston, Texas,  
4568." If you do not know the number, say for ex-  
ample, "I want Topeka, Kansas, John Doe's residence  
at 1422 Swiss Avenue," or "I want Kansas City, Mis-  
souri, the Cosmopolitan Hotel."

If you know the number of the telephone,  
give it to the long distance operator. It will  
speed your service materially. "Information"  
will be glad to supply numbers in principal  
cities on request.

A three-minute connection is allowed before "over-  
time" charges begin.

## Bristow, Okla.

### FEATURES OF STATION-TO-STATION CALLS

1. They are completed more quickly.
2. The rates are less than on person-to-person calls.
3. There are no report charges on "Station-to-Station" calls, except in the case of collect calls to points outside the State of Oklahoma which are not completed because of the refusal of the called party to accept the charges.

4. Rates are reduced after 7 p. m. and further reduced after 8:30 p. m. if initial period rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the day, evening, or night rate applies.

5. Charges begin when the called telephone is answered.

6. Charges can be "reversed" without any change in rate when the rate is 25 cents or more. A slight additional charge is made when the initial rate is less than 25 cents.

### PERSON-TO-PERSON CALLS

A person-to-person call is one on which you talk only to a particular person. The rate on a person-to-person call is higher than the rate on a station-to-station call.

To place a person-to-person call, ask the operator for "Long Distance," and when "Long Distance" answers give the operator your call. Example: "I want Sedalia, Missouri, 6789, Mr. Jones," or "I want Hannibal, Missouri, Mr. James Warren at 1604 Fremont Street."

*If you know the number of the telephone, give it to the long distance operator. It will speed your service materially. "Information" will be glad to supply numbers in principal cities on request.*

The charges can be reversed.

A three-minute connection is allowed before "over-time charges begin.

On person-to-person calls to points outside of the state of Oklahoma where the called telephone is reached but the call cannot be completed because the person desired is not available and cannot be reached elsewhere, a nominal report charge is made to compensate the Telephone Company for work done on the call.

### COLLECT CALLS

If the charge on the call you are placing are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted at the distant telephone, will be billed to that telephone.

### THE DIRECTORY

This telephone directory is issued by the Southwestern Bell Telephone Company and remains the property of the Company. It is for the subscriber's benefit that all old directories are collected by the carrier when new issues are delivered. Numbers are frequently changed and the use of obsolete copies results in calling wrong numbers. If you do not receive the new directory, or if additional copies are needed, call or write the Manager.

**ADDITIONAL LISTINGS**—For each subscriber a single line insertion in the alphabetical list is made without charge. Subscribers may arrange for additional listings under such regulations as apply to main listings to be placed in the alphabetical section of the directory at rates quoted.

**ERRORS IN THIS DIRECTORY**—While every effort is made to improve each issue of the directory and to eliminate all errors, yet the Company does not assume any liability because of errors and omissions that may occur in this directory. Occasionally, errors will be found. It will help if you will check your own listing in the directory, and if it is incorrect in any way, call the Manager, so that it will be corrected in the next issue.

### GENERAL INFORMATION

**EMERGENCY CALLS**—Report to the Fire Department and Police when the patrons do not call by number, are not a part of the service for which the telephone company contracts, but are purely an accommodation and may be discontinued at any time. The telephone company assumes no liability for mistakes of its employees in rendering this accommodation service, and the patrons by requesting such service makes the operator his agent for such purpose.

**ADVERTISING TELEPHONE NUMBERS**—Business subscribers often find it convenient to their customers to place their telephone numbers on their stationery, cards, advertising, etc. The telephone company recommends doing this, but the growth of the community and the corresponding growth of telephone facilities sometimes requires the change of telephone numbers. It is therefore suggested that stationery, cards, etc., which show the telephone number, not be printed in quantities that would involve a loss due to changes that might be necessary as a result of the telephone number being changed with a subsequent directory.

Business subscribers who have more than one telephone number will receive the greatest benefits from their service if the telephone numbers are grouped or consecutive, and only the first telephone number of the group is advertised to the public.

**ATTACHMENTS TO TELEPHONES**—In order to render satisfactory telephone service it is important that this Company own and maintain all of the apparatus and equipment connected with its lines. Telephone apparatus and equipment is constantly being developed, and this Company is anxious to furnish to its subscribers such equipment as will improve telephone service. It is for this reason, that the Telephone Company does not sanction the use of any devices on its equipment, except those furnished by the Company.

**MOVING TELEPHONES**—As a large number of telephones are moved each year, ample notice will enable us to make a definite appointment and then arrange to move equipment so that service will be practically uninterrupted. Any change in the location of telephone instruments and equipment must be made by employees of the telephone company.

**SERVICE DIFFICULTIES**—Our aim is to render a service that will be satisfactory to our customers. Uniform courtesy and politeness is an imperative rule of this company and all employees are required to be courteous and patient at all times. We realize that difficulties will sometimes occur despite all our efforts to avoid them. On the preceding page of this directory are shown the telephone numbers which should be called to report service difficulties. Reporting them in this way will help to improve the service by eliminating conversation with operators beyond that necessary to complete a call.
