**HOW TO MAKE A LOCAL CALL**

1. DIAL THE NUMBER FROM THE TELEPHONE DIRECTORY. REMOVE THE RECEIVER FROM THE BASE AND PLACE IT IN YOUR HAND.
2. CALL THE OPERATOR WITH THE NUMBER ''PLEASE,'' AS GIVEN IN THE DIRECTORY.
3. THE OPERATOR WILL THEN TAKE YOUR CALL.

**FEATURES OF STATION-TO-STATION CALLS**

1. They are completed more quickly.
2. The rates are less on person-to-person calls.
3. There are no report charges on “Station-to-Station” calls, except in the case of collect calls to points outside the State of Oklahoma which are not completed because of the refusal of the called party to accept the charges.

4. Reduced rates apply to station-to-station calls after 7 P.M. if the initial rate is $0.15 (in the state of Oklahoma) or $0.30 (in other states). The rate is determined by the distance between the parties.

5. Charges begin when the called telephone is answered.

6. Charges can be “reversed” without any change in rate when the rate is 25 cents or less. A slight additional charge is made when the initial rate is less than 25 cents.

PERSON-TO-PERSON CALLS

A person-to-person call is one on which a person is talking only to a particular person. The rate on a person-to-person call is higher than the rate on a station-to-station call.

To place a person-to-person call, ask the operator for “Long Distance” and “Long Distance” will answer your call. Example: “I want to call hashing, Missouri. Mr. James Warren at 1604 Frement Street.”

If you know the number of the telephone, give it to the long distance operator. It will speed your service materially. “Information” will be glad to supply numbers in principal cities on request.

The charges can be reversed.

A three-minute connection is allowed before “over-time” charges begin.

On person-to-person calls to points outside of the state of Oklahoma where the called telephone is reached but the call cannot be completed because the person desired is not available and cannot be reached elsewhere, the nominal charge is made to reimburse the Telephone Company for work done on the call.

THE DIRECTORY

This directory is issued by the Southwestern Bell Telephone Company in the interest of the public. The subscriber’s benefit is reaped if the public directory is used.

ATTACHMENTS TO TELEPHONES—In order to render satisfactory telephones, a nominal charge is made to reimburse the Telephone Company for work done on the call.

MOVING TELEPHONES—As a large number of telephones are moved each year, this service will enable us to make a definite appointment and then arrange for the equipment so that the service will be practically uninterrupted. At the location of the telephone instruments and equipment must be made by employees of the telephone company.

SERVICE DIFFICULTIES—Our aim is to render a service that will be satisfactory to our customers. Uniform courtesy and politeness is an imperative rule of this company and all employees are required to be courteous and patient at all times. We realize that difficulties will sometimes occur despite our efforts to avoid them. On the premises, the directory is shown the telephone numbers which should be called to obtain assistance. Reporting them in this way will help to avoid misunderstandings and will give the best possible service to the customers.
