Your telephone makes millions all over the United States your neighbors. To keep in touch with home or business—to get information quickly—to save expensive travel—to sell effectively, use

Long Distance

Long distance calls are surprisingly low in cost, especially if you use station to station service. Station to station calls placed between 8:30 p. m. and midnight are half the day rate. Between midnight and 4:30 a. m. they are one-fourth the day rate.

Ask the long distance operator for the station to station rate to some point in which you are interested.
